DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art teaches a bonding pad that has a circular central shape with fingers that protrude outwardly from the center. The prior art does not teach the above teachings in combination with the bonding pad having a main body portion that has a different shape than the fingered circular central shaped pad and where the fingered circular central shaped pad is conformal with the perimeter of the main body portion. This combination is found to be non-obvious thus allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1, 5-10, 14-21, 23, and 26 are allowed.
